I am asking for maximum support! Ukrainians need help.

As a result of the hostilities in Ukraine, the First International Foundation for the Development of Ukraine supports women and children fleeing their own country - Ukraine.

We offer our help to refugees, ie women with children who were forced to leave their homeland - Ukraine before the conflagration of war.

The needs are enormous, from psychological support to material support, because the escapees left their belongings behind. The number of people fleeing the war will increase.

We ask for any amount of payment to the Foundation's account with the note "Aid for refugees from Ukraine".

Let us be together with the Ukrainian people.
